(ASSOCIATED PRESS TELEGRAM)  
New York, Feb. 16.—The Repub-  
lican state convention today unan-  
imously adopted a platform intend-  
ed as the keynote for the Republi-  
can national campaign, endorsed the  
Whitman state administration, and  
named United States Senator James  
W. Wadsworth, Jr., Governor Chas.  
S. Whitman, Frederick Tanner,  
chairman of the state committee,  
and State Senator Elton R. Brown,  
Republican leader in the senate, as  
the "big four" to represent New  
York state in the national conven-  
tion.

(ASSOCIATED PRESS TELEGRAM)  
New York, Feb. 16.—The commit-  
tee on resolutions of the Republican  
state convention decided by unani-  
mous vote today to endorse the ad-  
ministration of Governor Whitman  
but to attach the endorsement to a  
separate plank dealing with state  
issues.

The convention was called to order  
at 12:45 p. m. U. S. Senator James  
W. Wadsworth Jr., nominated by the  
committee on permanent organiza-  
tion was unanimously elected perma-  
nent chairman and delivered his ad-  
dress.

At the time the session convened  
the committee delegates at large was  
still in session and had reached no  
decision on the names of the four  
delegates.

It became known while the commit-  
tee on resolutions was in session  
that endorsement of former Senator  
Ell Root for the presidency was pro-  
posed and that it became the sub-  
ject of long argument. Mr. Root's  
name was proposed by John A.  
Sleicher, and Henry L. Stimson sup-  
ported Sleicher's position in a vigor-  
ous plea in which he argued that Mr.  
Root was the logical candidate. The  
matter was the subject of debate for  
more than half an hour after which  
a vote was taken and the proposal  
was defeated.

Later the committee on delegates  
at large reported that it had agreed  
upon the following names as the  
"big four": United States Senator  
James W. Wadsworth, Governor  
Charles S. Whitman, Frederick C.  
Tanner, chairman of the Republican  
state committee and State Senator  
Elton R. Brown. These names were  
to be submitted later to the conven-  
tion.

Senator Wadsworth began his  
opening address shortly after 1  
o'clock. His declaration that the  
nation must prepare industrially  
for peace and that the only thing  
that will save it from utter destruc-  
tion commercially is a protective  
tariff, caused an outburst of ap-  
plause.

Dr. Nicholas Murray Butler,  
chairman of the committee on resolu-  
tions, was then introduced and

## Attorneys Appointed for Both Sides in Hearing of Charges Against Brandeis

(ASSOCIATED PRESS TELEGRAM)  
Washington, Feb. 16.—The senate  
committee investigating the nomi-  
nation of Louis D. Brandeis, of Bos-  
ton, to the supreme court bench, today  
engaged Austin G. Fox of New York,  
as counsel for those opposed to Mr.  
Brandeis and G. W. Anderson, Uni-  
ted States attorney at Boston as coun-  
sel for Mr. Brandeis and his support-  
ers.

Before cross-examination of Mr.  
Winslow was begun the committee  
held a protracted executive session.  
Senator Hollis, of New Hampshire,  
who is not a member of the commit-  
tee was called in and later Austin G.  
Fox, a member of the New York bar  
association was called. Senator Hol-  
lis later consulted with G. W. Ander-  
son, U. S. district attorney at Bos-  
ton, who is watching the interests of  
Mr. Brandeis at the hearing, and Ed-  
ward F. McClennen, Mrs. Brandeis'  
law partner. It was stated that the  
conference related to procedure in  
the hearing.

In a protracted executive session  
the committee decided that the in-  
vestigation had broadened out to  
such proportions that counsel were  
required for the interests of both  
sides.

## ENJOYED HIS WORK AS WAR SECRETARY

General Hugh L. Scott.

Following the resignation of Sec-  
retary Garrison of the war depart-  
ment, Major General Hugh L. Scott,  
army chief of staff, took over the  
duties of the office. The work proved  
very enjoyable to the famous old  
general, whose latest photo is shown  
above.

## GREAT BRITAIN TO COMMANDEER DISTILLERIES

(ASSOCIATED PRESS TELEGRAM)  
London, Feb. 16.—The Central  
News says it is able to confirm the  
report that the government is about  
to commandeer all distilleries in the  
United Kingdom with as little delay  
as possible.

This step is rendered necessary it  
is said, owing to the constantly grow-  
ing demand for alcohol in the man-  
ufacture of high explosives. It is  
explained that the government, after  
acquiring the amount of alcohol for  
munitions, will hand over the re-  
mainder to the trade.

## STEAMER REPORTS COLLISION WITH UNKNOWN VESSEL

(ASSOCIATED PRESS TELEGRAM)  
New York, Feb. 16.—The steamer  
Yumuri arrived here today from  
Mascoris, San Domingo, and re-  
ported having been in collision with  
an unknown schooner at 4:10 a. m.  
yesterday morning. The collision  
occurred four miles southwest of the  
five fathoms bank lightship off the  
entrance to Delaware Bay in very  
foggy weather.

The Yumuri remained in the vicinity  
for nearly two hours but was un-  
able to find the schooner. The Yumuri  
is under charter to the New  
York and Porto Rico Steamship  
company.

## ROBT. M'NEELY'S BODY THOUGHT TO BE ASHORE

(ASSOCIATED PRESS TELEGRAM)  
Washington, Feb. 16.—The body  
of American consul Robert N. Mc-  
Neely of Monroe, N. C., who was lost  
in the destruction of the liner Persia  
in the Mediterranean is thought to  
have washed up on the shore near  
Alexandria, American Consul Garrels  
today telegraphed to that effect to  
the state department.

Investigation of the fitness  
of Louis D. Brandeis has so broad-  
ened out that the senate investigat-  
ing committee decided today that its  
work would be expedited if both sides

## NO CHOICE

**Except Woodrow Wilson  
Need Be Made by Ohio  
Democrats**

**INTERPRETATION PUT  
UPON LAW**

**Which Governs Primary  
Elections In Ohio**

**IS OFFICIAL CANDIDATE**

**According To Ruling Of  
Secretary Of State Hilde-  
brandt Regarding Presi-  
dent's Announcement, As  
No Other Candidates Will  
Come Before The Voters  
Next Summer.**

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Feb. 16.—After re-  
ceiving a letter from President Wil-  
son today giving permission for use  
of his name as a candidate for re-  
nomination, Secretary of State Hil-  
debrandt ruled that Democratic can-  
didates for delegates to the national  
convention need make no second  
choice for President. This ruling in-  
terprets the Ohio primary law which  
requires candidates for delegate to  
announce with their declaration of  
candidacy their first and second  
choices for the presidential nomi-  
nation.

The Democratic state central  
committee recently adopted a reso-  
lution declaring Ohio Democrats  
have no second choice for President  
other than President Wilson. The  
secretary of state's ruling will elimi-  
nate the necessity of Democrats  
selecting a "dummy" candidate for  
second choice.

Mr. Hildebrandt also recommended  
that in view of the suit filed in the  
supreme court yesterday to deter-  
mine whether the Sprague congres-  
sional redistricting bill was not sub-  
ject to referendum and is still in  
effect, each candidate for delegate  
and alternate file his nomination  
papers in two districts—one under  
the present district arrangement and  
one under the Sprague act.

These delegates must file their  
nomination papers by February 25.  
The supreme court will hear the  
case on that day and cannot decide  
it until later. Consequently Mr.  
Hildebrandt ruled that candidates for  
delegates should take this action  
"for the purpose of protection un-  
til the court decides the question."

Referring to the Ohio law govern-  
ing nomination of national dele-  
gates, the secretary of state said:  
"After careful reading and analyz-  
ing the wording in the aforesaid  
section, I am of the opinion that the  
legislature intended that whenever  
two or more candidates for the  
nomination for President of the United  
States, presented their written con-  
sent to the electors of Ohio by filing  
such written consent with the state  
supervisor of elections, candidates  
for delegates and alternates to na-  
tional conventions are required to  
make a first and second choice of  
the candidates for President."

"In case there is only one candi-  
date for the nomination for the  
presidency of a political party who  
has filed his written consent, such  
candidates for delegates and alter-  
nates to such national convention  
shall not be required to make and  
file a certificate for second choice,  
but for first choice only, as the law  
certainly does not contemplate or  
require an impossibility."

Therefore, my opinion is that  
where two or more candidates for  
President of the same political party  
have filed the required consent,  
candidates for delegates and alter-  
nates must have a first and second  
choice and in case only one candi-  
date for President of a political party  
has filed the written consent, candi-  
dates for delegates and alternates  
must have a first choice only."

"I have officially entered upon  
the records of this department the  
candidacy of President Wilson," an-  
nounced Secretary of State Hilde-  
brandt, after receiving the President's  
communication.

President Wilson's letter was  
turned over to photographers who  
were anxious to get a reproduction  
of the document which indicated  
formally for the first time that the  
President is willing to be renomi-  
nated. The receipt of the letter  
clears the way for the national  
convention to file their declaration  
of candidacy by February 25, giving  
President Wilson as their first  
choice.

ESCAPED TORPEDOES.**  
(ASSOCIATED PRESS TELEGRAM)  
New Orleans, Feb. 16.—The crew  
of the British steamer Baron Napier,  
a mule ship which arrived here  
today from Alexandria, Egypt,  
brought stories of a battle in the  
Mediterranean on January 17, be-  
tween the Baron Napier and a Ger-  
man submarine in which the steamer  
escaped.

## GERMANS PERIL LATIN AMERICA, CHARGE

The charge has been made before the senate foreign relations com-  
tee that the Germans, before the war, secretly violated the Monroe doc-  
trine by gaining a foothold in the following places in the Western hemi-  
sphere: (1)—Haiti; (2)—the Danish island of St. Thomas; (3)—Nicara-  
gua; (4)—Columbia; (5)—Paraguay; (6)—Chile.

## Prisoner Cut Throat With Penknife in Utica Jail in Effort to Make "Clean Job"

(Special to The Advocate)  
Utica, O., Feb. 16.—R. F. Free-  
man, 47, a traveling salesman from  
Huntington, W. Va., was arrested  
early Tuesday evening by Marshal  
Hobbs and placed in jail on a charge  
of passing a worthless check. Twenty  
minutes later the Marshal was  
summoned to the jail by the cries of  
several other prisoners. He found  
Freeman lying on the floor of his  
cell with two knife wounds in his  
neck.

Marshal Hobbs called a physician  
and the prisoner's wounds were  
dressed. According to the marshal,  
Freeman said he was trying to make  
a "clean job" of it. The marshal  
says the wounds were self-inflicted  
and were made with a pocket knife.  
Freeman returned the money he had  
secured on the check and he was re-  
leased and sent to Newark at noon  
today.

According to Marshal Hobbs, Free-  
man has been having considerable  
domestic trouble. He came to Utica  
Tuesday, at which place his wife has  
been staying with her parents Mr.  
and Mrs. Andrew Farley for the past  
two weeks. A few hours after he  
arrived in town he passed a check  
for \$7 on a Huntington bank to Nick  
Hall, proprietor of a restaurant.

Hall became suspicious of the  
check and wired the Huntington  
bank for information. He received  
a reply to the effect that the check  
was worthless. About the time that  
he notified Marshal Hobbs, the lat-  
ter was looking for Freeman. The  
marshal was "tipped off" that Free-  
man had made threats against his  
wife and was trying to purchase a  
gun.

A little later Freeman was appre-  
hended by the marshal and placed  
under arrest. He was locked up  
with several other prisoners and the  
marshal left the jail and went home  
to supper. About twenty minutes  
later Hobbs was called to the jail  
by the cries of the prisoners and  
found Freeman lying in a pool of  
blood.

Hobbs stated that when he asked  
Freeman why he made the attempt  
on his life, the latter replied that  
he was trying to make a clean job  
of it. The marshal returned the \$7  
to Hall and after consulting Free-  
man's wife, decided that it was best  
to send the man out of town. He  
purchased a ticket and Freeman left  
on the noon train for Newark.

According to Hobbs, Mrs. Free-  
man left her husband two weeks  
ago and came to the home of her  
parents here. Since that time,  
Freeman, it is alleged, has made  
numerous threats against his wife's  
life and it is said that this was his  
purpose in trying to buy a gun.

Freeman's injuries consisted of  
two jagged wounds, one on each side  
of the neck. He did not slash his  
throat, but stuck the knife blade in  
straight in an effort to puncture  
the jugular vein. The knife blade  
just barely missed the vein sought,  
the attending physician stated, up-  
on examining the injuries.

**CLUE TO CHEF  
WHO POISONED  
BANQUET SOUP**

(ASSOCIATED PRESS TELEGRAM)  
Chicago, Feb. 16.—What is be-  
lieved to be the first direct clue to  
the whereabouts of Jean Cronos,  
former assistant chef at the Univer-  
sity Club, is being investigated to-  
day by the police on information  
furnished by C. L. Abel of Watseka,  
Ills. Cronos is charged with putting  
poison in the soup served at the re-  
cent banquet given Archbishop Mun-  
delein.

Abel told the police that a man  
answering the description of Cronos  
boarded a Chicago and Eastern Illi-  
nois train February 10, and sat in  
the seat in front of him. He later  
was joined by a woman with whom  
he made an appointment to meet in  
Nashville, Tenn. He said he first  
was going to St. Louis. Abel said  
the woman got off at Watseka, and  
police investigation developed that  
she spent the night at a hotel there  
and left the next morning.

## NO EVIDENCE OF IMPORTANCE IN LAMBERT INQUEST

(ASSOCIATED PRESS TELEGRAM)  
Chicago, Feb. 16.—A continuance  
of the coroner's inquest into the  
death of Marian Lambert, Lake For-  
est high school girl whose body was  
found last Thursday, is expected to-  
day. No evidence of an important  
nature regarding the connection of  
Will A. Orpet, Wisconsin University  
student, with the girl's death has  
been discovered, according to the  
authorities.

## FEDERAL MEDIATOR IS INVESTIGATING THREATENED STRIKE

(ASSOCIATED PRESS TELEGRAM)  
Toledo, O., Feb. 16.—G. Wallace  
Hanger, of the department of labor  
at Washington, has come here to in-  
vestigate on behalf of the federal  
government the differences existing  
between telegraphers and agents and  
Receiver W. L. Ross of the Clover  
Leaf railroad, over which a strike  
has been threatening. The action of  
the government in sending Mr. Hanger  
here, it was said today, has caused  
prospects of a peaceful settlement to  
grow brighter.

The road agents and operators ask  
for a minimum wage of \$60, claim-  
ing that they are paid as low as \$22  
a month.

Butte, Mont., Feb. 16.—Twenty-one men were victims of the fire  
which broke out in the shaft on the 1200-foot level of the Pennsylv-  
ania mine here Monday night. This developed early today when bod-  
ies of the last six to be accounted for were found.

**EXPLOSIONS**  
Preceded Burst of Flames in Club  
House Fire in Canada.  
(ASSOCIATED PRESS TELEGRAM)  
Toronto, Ont., Feb. 16.—The  
home of the American club, a social  
organization of American residents  
in Toronto, was destroyed by fire  
early today. The fire followed a  
series of explosions, the cause of  
which has not yet been determined,  
but the fact that the members of  
the club have shown strong pro-  
pally sympathies and that the 97th  
Overseas regiment, popularly known  
as the American Legion, had its  
birth there, caused the police and  
military authorities to suspect that  
the fire was the result of a plot by  
alien enemies.

The building was valued at \$300,-  
000, and with its contents the loss  
is estimated at \$50,000.

Immediately after the explosions  
the roof fell in and flames burst  
from the windows on all six floors.  
Just after the explosions were heard  
a man was picked up in the debris  
in the street with his skull frac-  
tured and he was thought to be  
fatally hurt.

The injured man was identified  
later as the club's caretaker. It  
was reported that three members of  
his family had been unable to es-  
cape from the building. At dawn the  
ruins were still burning and the  
firemen were unable to ascertain  
whether they contained any bodies.

Six hours after the fire started the  
police said they had accounted for  
all but two of the missing persons.  
It was then believed that the loss of  
life would not exceed that number.  
Several other officers of the  
American Legion were sleeping in  
the building when the fire broke  
out, but it is believed that all man-  
aged to escape by the rear doors  
and windows.

## Wakefield Laughs as Trial Proceeds, and Evidence Was Given on Embezzlement Charge

(Special to The Advocate)  
Detroit, Mich., Feb. 16.—W. Cur-  
tis Wakefield, who tried to uplift De-  
troit, Newark, O., and other com-  
munities through the medium of his  
American civic institute, was placed  
on trial in recorder's court before  
Judge Jeffries Tuesday afternoon on  
a charge of embezzling money from  
one of the numerous secretaries of  
the institute.

The erstwhile associate and friends  
of kings and nobles, not to forget  
other distinguished personages such  
as governors, United States senators,  
and so forth, was placed in the pris-  
oners' dock between a negro and a  
man accused of breaking and enter-  
ing a building.

Wakefield appeared to take the  
whole proceeding as a great joke and  
laughed continuously throughout the  
afternoon, especially when one of  
his "secretaries" of a former day  
scored a point against him in his  
testimony. The laughter of the civic  
uplifter was light, dry, almost scorn-  
ful, and was evidently for the bene-  
fit of a jury on the opposite side of  
the court room.

Several secretaries testified that  
they had been given high sounding  
titles and fine promises of good sal-  
aries—but averred that the fruitfulness  
of their various positions ended  
there.

Detective Frank Fraley, who  
brought Wakefield back from Chi-  
cago after the uplifter had been ar-  
rested there December 19, told how  
the would-be savior of Detroit had  
been tricked and arrested.

Learning that Wakefield was in  
Chicago and receiving mail through  
a leading hotel there, from one of  
the reformer's alleged dupes, the pro-  
secutor here wired the Chicago au-  
thorities to be on the outlook for  
Wakefield when he called for his  
mail at the hotel. They headed the  
reformist and arrested Wakefield,  
Fraley said.

Leo J. Fregolle, 214 Howard  
street, "secretary of the southern  
states," said that he had given Wake-  
field a \$400 Chicago draft and that  
Wakefield had given him a worthless  
check for \$300 in return. The \$100  
difference was to insure Fregolle's  
good faith. That was the last Fre-  
golle said he saw of the money. If

## WOMEN'S STOMACH TROUBLES

The Great Woman's Medicine Often Just What Is Needed.

We are so used to thinking of Lydia E. Pinkham's Vegetable Compound as a remedy exclusively for female ills that we are apt to overlook the fact that it is one of the best remedies for disorders of the stomach.

For stomach trouble of women it is especially adapted, as it works in complete harmony with the female organism, since it contains the extracts of the best tonic roots and herbs. It tones up the digestive system, and increases the appetite and strength. Here is what one woman writes showing what this medicine does:

Newfield, N. Y.—"I am so pleased to say I can recommend Lydia E. Pinkham's Vegetable Compound as an economical and beneficial remedy in most ailments pertaining to women. At least I found it so by only taking two bottles. I had indigestion in a bad form and I am now feeling in the best of health and owe it all to Lydia E. Pinkham's Vegetable Compound."

Mrs. BURR WILLIAMS, R. D. No. 29, Newfield, N. Y.

Many women suffer from that "all gone feeling," and "feel so faint," while doing their work. Ten chances to one their digestive system is all out of order. A tablespoonful of Lydia E. Pinkham's Vegetable Compound after each meal should completely remedy this condition in a few days.

## SPILLMAN'S GARAGE

63 S. THIRD ST., NEWARK, OHIO.

## GRANVILLE IS TO HAVE AUTO 'PHONE SERVICE

(Special to The Advocate)

Granville, Feb. 16.—At an adjourned meeting of the village council last night, the Newark Telephone Company was granted a new franchise for a period of 21 years, to take effect within 60 days, upon condition that the telephone company install an automatic telephone plant here.

In an interview Mr. Hollander, general manager of the Newark Telephone company, this morning stated to The Advocate that plans are already under way for the installation of an automatic system at Granville which will not only include all the telephones in the village but the rural telephones as well. He stated that the company expects to expend in the neighborhood of \$20,000 during the next 12 months on the Granville plant. The present plan contemplates the installation of a new covered type switch recently developed by the Automatic Electric Company of Chicago, the new rural automatic telephone and switchboard, and in fact all the latest developments in the automatic telephone art. No expense will be spared to make the Granville plant the best that money can produce. The present switchboard is entirely filled up, and the new switchboard will have an installed capacity of 100 per cent over and above the present plant.

A trunking cable containing 32 wires will be stretched between the automatic at Granville, so that the new plant at Granville will bear the same relation to the Newark plant as the present sub-exchanges in the North, East and West End of the city.

There will be no operators at Granville. The Service Department, more commonly known as the "Trouble Clerk" will be operated from the Newark wire chief's desk, as well as the information operator and long distance. In other words if a Granville subscriber wishes to be connected with the long distance operator, he will call 0 on the dial and will be instantaneously trunked to the Newark long distance operator who will receive and take his call.

Mr. Hollander stated that there are at present 425 telephones in service on the Granville exchange, and he expects with the installation of this system and the increase of cable facilities, that the Granville plant will have at least 600 telephones in service within a year after the installation of the Auto 'phone.

About 10 miles of cable will be necessary for this improvement, which the company expects to order within the next week, and at the same time the order will be placed for the switchboard and telephones. Before presenting this matter to the village council the company made a canvass of all its telephone users on the Granville City exchange, with the result that 93 per cent of its patrons were in favor of the adoption of the automatic system. This undoubtedly was due to their close proximity to the city of Newark and to their intimate knowledge of the excellent service the company's automatic system renders there.

Mr. Hollander also stated that the company contemplates changing the present rural system on the Newark exchange, which gives service to the farming community directly adjacent to Newark, to the automatic rural system this spring.

was upon his complaint that Wakefield was arrested.

Other secretaries added to the testimony. There was Thomas O'Laughlin, "secretary of education," Henry Brummel, "secretary of the western states," John R. Foley, "secretary of the New England states," and others.

Since he was 21, Wakefield has been the originator and promoter of scheme after scheme either to get-rich-quick or to save the world from itself. He took up the latter work through his American civic institute, which he has attempted to introduce in cities, big and small, in all parts of the United States, having, according to the police, a trail of debts to show the progress of his uplifting journey.

When he was brought back to Detroit Wakefield raised the cry that the machinations of local politicians who didn't want him to uplift Detroit, were responsible for his difficulties. The case will go to the jury today.

joining property, the firemen got the upper hand of the conflagration. At the north end of the burning district, a water curtain on the department store of R. A. McWhir and company prevented a further spread. The granite walls of St. Mary's Cathedral protected a residential district nearby.

In 1833 flames swept the entire length of Main street, but the property damage did not approximate that of today's conflagration. The majority of the structures were constructed of brick, three or four stories in height.

## \$3,000,000 LOSS

Is Estimate Placed Upon Fire Destroying Steamers and Pier.

(Associated Press Telegram.) New York, Feb. 16.—The steamships Bolton Castle and Pacific, and a 900-foot pier belonging to the New York Dock company, at the foot of Pioneer street, Brooklyn, were destroyed early today by the most disastrous fire on the Brooklyn waterfront in years. Another steamer, the Pallaz, was damaged, 25 scows and lighters were partly or wholly burned, and upwards of 40 of the cooies from the Bolton Castle and Pacific were missing after the fire.

The loss is estimated at considerably more than \$1,000,000. The origin of the fire is unknown, but suspicions that it was incendiary were aroused because of the fact that some of the steamers were loading with war munitions, some of which was intended for shipment to the Russian government.

A watchman aboard the Bolton Castle discovered that the buildings on the pier were on fire soon after one o'clock this morning. The blaze spread so rapidly that the officers and crews of the steamers were compelled to prevent the spread of the flames to their vessels were compelled either to leap overboard or to seek safety aboard other lighters or tugs which hastened to the rescue.

The three steamers lying at the pier were surrounded by a fleet of about fifty lighters and barges on each of which was one man or more. On some of the barges were the wives and families of the captains.

Some of them were compelled to jump overboard to escape the swift crush of the flames. Firemen and policemen dragged many of them out of the water to adjoining piers and others were rescued by tugboats or fireboats. It was not known here early today whether all had escaped death.

The captain of the Bolton Castle was able after the fire to account for only 42 of the 63 persons composing the ship's company, while the captain of the Pacific could account for only 35 of the 60 officers and crew of that steamship. Those missing were mainly coolie stokers.

Captain Benjamin Smith of the Bolton Castle and six of his crew made their escape from the burning vessel by crawling hand over hand on a rope to a barge. Mrs. Smith fell in the water but was rescued by sailors.

When the first company of firemen reached the scene, the pier was blazing so furiously that they could not gain access to it. The Bellgrand was towed into the stream 200 yards or more off the dock but it was impossible to move the other two ships. Fireboats saved the Bellgrand but could make no progress against the flames on the other two vessels.

The Bolton Castle was loading with gasoline for Russia and this fed the blaze. The boilers of both the Bolton Castle and the Pacific blew up when the fire was at its height, completing the work of destruction. Several barges loaded with gasoline lying near the steamers were destroyed.

Fireboats prevented a spread of the fire to adjoining piers and before daylight had it under control.

The Bolton Castle, a British vessel of 3639 tons, arrived here February 6, from Singapore, Port Natal and St. Luira. The Pacific of 2612 tons arrived from Hull, England, yesterday. Both belong to the Castle line. The burned pier was leased to the Barber and Company steamship agents and is believed to have been filled with merchandise, including war munitions.

Later reports placed the estimated property loss at more than \$3,000,000. A statement issued on behalf of the agents for the owners of the steamship Bolton Castle and Pacific said their investigation thus far had failed to develop any evidence which would lead to the conclusion that the fire was of "incendiary origin."

## MICHIGAN FIRE

Causes Death of One and \$150,000 Property Loss.

(Associated Press Telegram.) Midland, Mich., Feb. 16.—One person was burned to death, and one is said to be missing and damage estimated at \$150,000 was caused by a fire which destroyed a block of Midland's business district early today. Miss Della Taylor, a milliner, escaped from her rooming place but later attempted to save some of her belongings and perished.

## INCENDIARISM

Suspected of Fire Destroying Steamship at Philadelphia.

(Associated Press Telegram.) Philadelphia, Feb. 16.—Investigation is being made today by city authorities, officials of the Earn line steamship company, and the British consulate to determine whether the fire which damaged the sugar cargo of the British steamship Dalton at a wharf here last night was of incendiary origin. The loss is placed at \$100,000. The fact that the fire started in two sections of the hold is regarded as suspicious. Officials of the steamship company point out that the fire was the sixth to occur on board steamers loaded with sugar within the last month.

The Dalton was to convey the sugar to West Hartlepool, Eng., for the British government.

## RISE IN PRICES OF NECESSITIES CAUSED BY WAR

(Associated Press Telegram)

London, Feb. 16.—According to statistics published today by the British board of trade, the retail price of food in the United Kingdom advanced on the average of about 1-1/2 per cent in January.

Flour and bread increased in price about 6 per cent.

Taking the country as a whole and making allowance for the relative importance of various articles in the working class household, expenditure on the average increased in retail prices of food since the beginning of the war has been 47 per cent.

The board of trade states that in Berlin the general level of prices of certain more important articles of food was 83.4 per cent above that of July, 1914.

In Vienna, it is declared, the general level of food prices was 112.9 per cent higher than that of July, 1914.

read the tentative program, which was adopted.

The resolution passed the support of a patriotic and forward facing Americanism, the enlargement of national naval and military establishments for purposes of defense alone and asserts that the resources already at the command of the government, coupled with a revision of the tariff in accordance with Republican principles and with national economy, will furnish sufficient funds for the measures of defense.

They set forth that while America must not interfere in international controversies, it must at the same time insist upon observance of international law. American rights in Mexico should be protected either by a response to Mexican government or through co-operation or with other American republics and there should be "no abandonment of the duty of this nation" to the Philippines, leading possibly to the seizure of the Philippine Islands by some foreign power.

A permanent tariff policy "for the protection of American labor and the conservation and development of American resources and industry" is demanded and "efficiency" should be given to legislation, meeting combinations and monopolies. Measures advocated included a strong American merchant-marine, development of farm credits and amendment to the federal reserve act to avoid possibility of inflation of currency.

## LUSITANIA

NOTE PRESENTED TODAY BY GERMAN AMBASSADOR VON BERNSTORFF

To Secretary of State Lansing but Neither Diplomat Would Give Its Contents.

(Associated Press Telegram)

Washington, Feb. 16.—Count von Bernstorff, the German ambassador today presented to Secretary Lansing, the latest draft of the Lusitania agreement, embodying the changes suggested by the American government and also the change suggested by Berlin. The indications that the agreement in its present form probably would be acceptable to the United States.

Count von Bernstorff presented formally the draft of the agreement and it is understood was informed it could not be accepted as final until it had been submitted to President Wilson. The indications were it seemed satisfactory to Secretary Lansing.

When Count von Bernstorff came from Mr. Lansing's office after a visit of less than ten minutes, he said:

"Gentlemen, I refer you to the secretary of state."

Almost at the same time Mr. Lansing sent out this message:

"I have nothing to say."

As now drawn and formally signed by the German ambassador, the agreement is in reply to the last American note. The Lusitania negotiations have approached the settling point so many times, only to be delayed by new developments, that administration officials today were not ready to say that the final draft was entirely acceptable for, they explained, no one but President Wilson himself could decide. The fact that the agreement before the last revision was "substantially in accord" with the views of the president, leads them to a confident belief that the long controversy surrounded by so many dangerous perplexities was at last coming to a close.

## Finding a sensible cigarette is just plain, common sense

All you have to do is to look for three points. Take any cigarette you know. Then ask yourself—

Is its taste just what you like best?

Is it comfortable to your throat and tongue—free from bite or hotness?

Will it allow you to smoke as often as you'd like to smoke without any mean after-feeeling?

Fatimas aren't the only cigarettes that answer "yes" on all of these points. There are other sensible cigarettes. But facts seem to indicate that Fatimas are the sensible cigarette for most men. Because they now outsell every other cigarette in the world costing over 5c.

Doesn't it seem reasonable that you, too, will like Fatima best? Try them—TODAY.

## TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that you are going to stick to for your steady smoke. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette. Draw in a cloud of smoke—a small, ordinary and not sufficient to make this test. Hold it "float" around for a few seconds. Hold it against your throat. Now blow out the smoke. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel COOL and smooth both to your throat and to your tongue.

On the other hand, if the proportions are not right and if the cigarette contains a leading tobacco journal—according to a leading tobacco journal—is up to the smoker. # Golden Sun Coffee

## What Makes So Many Families Like Golden Sun?

Some like it for its flavor, some for its uniformity, some for the absence of the bitter taste sometimes found in coffee—and everybody likes its popular price.

All of these merits will undoubtedly appeal to you. But there's a bare possibility that Golden Sun Coffee will satisfy you no more than the one you now drink. If you are fully satisfied, don't change; if you are not, try one pound of Golden Sun Coffee.

No one coffee can suit all tastes, but nine families in ten who try it prefer this Golden Sun Coffee—the chances are that you will, too. But you can't tell till you try it. Golden Sun Coffee is steel cut by the Golden Sun process. Ask your grocer for it.

BUILDING SHOW, FIRST IN THE UNITED STATES, OPENS IN CLEVELAND TODAY.

Every Phase of Construction Operation Shown in Exhibits Covering 65,000 feet Space.

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, Feb. 16.—Cleveland's complete building show, the first of the kind ever held in the United States, opens here this afternoon in the Coliseum, with 65,000 square feet of floor space, filled with an interesting variety of exhibits, covering every phase of building operation from the purchase of the land to the last detail of interior finish. The exposition will be officially opened at 1 o'clock with Mayor Harry L. Davis, his cabinet and members of the council as the guests of honor, together with the members of the Cleveland Builders Exchange and the Cleveland Chapter, American Institute of Architects. W. A. Fay, president of the show company, will introduce the mayor. Special days have been arranged for the attendance of various civic organizations and the exposition will cover a period of ten days. There will be a special Washington's birthday celebration and a contest has been arranged in which the winner will be given a \$6,000 home absolutely free.

## VISITORS WERE ENTERTAINED BY THE LOCAL ELKS

A capacity house greeted the performers in the Elk minstrel the second night, every seat being sold out in the Auditorium, both on the lower floor and in the balcony.

As on the first night last night's show ran smoothly and all participants did remarkably well. The end men, Messrs. Dave Murphy, Beryl Shaw, Bernie Wingenter, Fletcher S. Scott, Rollin Baird and Herbert Webber, sprung a number of new jokes and the end songs made a big hit with the audience.

The soloists, Messrs. Henry Sherard, M. J. Back, Frank Ewalt and Gerald Athey were in excellent voice and the double quintette sang even better than the night before, if that were possible. The acts in the olio also met with instant favor.

After the performance the Elks entertained at their club rooms, a number of visiting brothers being present from many different cities as well as all who participated in the minstrel. An elegant luncheon was served which had been prepared by Col. Wm. C. Wells, Chas. Dean and the club stewards, Col. Billy Hohl and brother Johnny. Harry Star and Dr. J. T. Lewis, members

## LOOKING FOR WORK

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthy digestion make work pleasurable in business, in school or even house work, and if those who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's.

Scott & Borne, Bloomfield, N. J.

of the minstrel entertaining committee, looked after the comfort of the guests.

The luncheon consisted of clam chowder, sea bass, scalloped oysters, salad, baked beans, young onions, radishes, celery, olives and wafers. It was splendidly prepared and the large crowd present thoroughly enjoyed it.

Entertainment was furnished by the different musical acts of the minstrel and anecdotes by Mr. Chas. Tafel, of this city, a member of the theatrical profession.

Dr. Charles A. Wingenter of Wheeling, W. Va., and a brother of Jernie Wingenter of this city, was introduced by Exalted Ruler James R. Cooper, and gave a delightful and eloquent address. Dr. Wingenter is a talented gentleman and his services are constantly in demand by Elk lodges in various cities of the country, especially for annual memorial services. During the course of his address the doctor recited a humorous bit of poetry, having to do with the various food germs. He was given a splendid reception as was attested by frequent applause.

## C. S. OSBURN MAKES REPLY TO COMMITTEE

Editor of the Advocate:

In answer to the letter signed by Messrs. Alexander, Adams and Curry published in the Newark papers of Feb. 12, a letter replying to my communication of Feb. 10, I ask permission to offer the following:

Concerning my letter of the 10th I have no retrenchments to make. I only tried to do what the council has asked of the public, and what I considered to be the duty of the public, that is, express my views, but it seems that portion of this new council known as the "safety committee" is not responsible for any requests made by the old council or the entire new council; and does not wish anyone to express his or her views unless said views coincide with those of the safety committee.

So far as my knowledge of the "ins and outs" of the taxation system is concerned, I will admit that I am not as well informed as I should be and would be glad to have these "ins and outs" explained fully by the wise ones who are "apprised fully of the facts" by having consumed the necessary "month or two" in making investigations. The public should know these "ins and outs" and no doubt the city papers will publish them. I believe the public would be interested to know too, just how the budget is made up and what was the beginning of this deficit and if the deficit is to be overcome, and the expenses of the safety department brought within the bounds of the budget, by the reduction of the police force or if other departments are to suffer equally? Respectfully,

C. S. Osburn.

## RAIN ROCKS

Meetings are still in progress at this place.

Rev. Norris was called to officiate at a funeral at Eden Sunday.

Miss Grace Adams of Rocky Fork was the guest of Eva Thompson Wednesday evening.

Mr. Jas. Colville is much improved at this writing.

Rev. C. C. Wise and J. M. Baker visited at the home of T. T. Gault and family.

Mr. and Mrs. Ray Varner of Fallsburg, Miss Zona Danielson and brothers Joe and William, were Sunday guests at Elias Weekley and family.

Sir Philip Sassoon, now with the British army at the front, is one of the wealthiest men in the service.

## LICENSES

MUST BE OBTAINED BY AMERICAN IMPORTERS IN GREAT BRITAIN

Before Tobacco, Furniture, Woods, Wall Paper and Wood Pulp Can be Received.

(ASSOCIATED PRESS TELEGRAM)  
London, Feb. 16.—In the opinion of American importers here the royal proclamation of yesterday forbidding importation after March 1 of certain commodities including tobacco, furniture woods, wall paper and wood pulp, would prove disastrous to American traders were it not for the saving clause which permits the bringing in of these articles under licenses from the board of trade.

American importers do a large business in these commodities. Owing to the provision for trading under licenses, it is believed the chief effect of the order will be to give the British government greater control over free tonnage. A British ship in an American port which is ready for loading and is wanted at a home port, will have no difficulty in obtaining a license to load any available cargo of commodities on the prohibited list. Control of free tonnage and better regulation of the trade in what are considered luxuries in war time are the end sought by the government. It is believed here the prohibitory measure, coupled with the licensing plan would prove more effective than any form of arbitrary control by the government of the mercantile marine.

The effect on the tobacco trade within the United Kingdom is expected to be even less disturbing than any interference with the exportation of tobacco from America may be. There is in storage in the United Kingdom an amount of tobacco much in excess of that usually on hand in times of peace.

## NEEDMORE

Mrs. Grover Ulery and son George of Martinsburg visited Mrs. Lillie and Amos Martin Thursday and Friday.

Mr. and Mrs. George Iden spent Friday with Mr. and Mrs. G. W. Priest of Pleasant Valley.

Mr. and Mrs. G. B. Martin and daughter Margaret of Fallsburg, visited Mr. and Mrs. J. W. Martin, Friday.

Mrs. George Iden spent Thursday afternoon with her daughter, Mrs. Ben Martin of Fallsburg.

## Lime Treatment in Tuberculosis

In the May 25, 1912, issue of the Journal of the American Medical Association appeared this statement concerning calcium (lime) medication in the treatment of pulmonary tuberculosis (consumption):

"Under the systematic, continued and persistent regime of calcium assimilation, Van Gieson has seen a number of his patients improve, undergo an exudation or partial consolidation in the lung, which then resolving would appear to contribute to the walling off and closing of the lesions. Hand in hand with this course of events, the sputum clears up of tubercle bacilli, which finally disappear, and the patients are discharged with healed pulmonary tuberculosis."

Ethical medical journals seldom speak so positively about a remedial agent, yet this testimony coincides with that from many consumptives who have secured like results through the use of Eckman's Alterative.

Since calcium is a constituent of this remedy for pulmonary tuberculosis and allied throat and bronchial affections, its healing power may in some measure be attributed to the manner in which this element is so combined with other ingredients as to be easily assimilated by the average person and it does not irritate the stomach.

Eckman's Alterative contains no opiates, narcotics or habit-forming drugs, so it is safe to try. If your druggist is out of it, ask him to order, or send direct to Eckman Laboratories, Philadelphia.

## ELK CHARM IS PRESENTED TO HARRY D. HALE

At the social session held at the Elk club rooms last evening after the minstrel show, Harry D. Hale, chairman of the Elk minstrel committee, was presented with a beautiful double elk tooth, the gift of members of the lodge.

Exalted Ruler James R. Cooper made the presentation, the club rooms being filled to overflowing with visiting brothers from Zanes-

H. D. HALE.

ville, Coshocton, Columbus, Mt. Vernon and Wheeling, W. Va., all of the minstrel performers and members of the local order.

Mr. Cooper stated that the charm was presented as a token of appreciation and friendship as well as a recognition of the services of Mr. Hale, who while not a member of the local lodge, has always taken an active interest in its welfare and had always given his services whenever they could be utilized, that he had been active in promoting the annual Elk minstrel for the past five years, and the speaker concluded by handing Mr. Hale the charm, the latter responding by thanking his brother Elks for the gift and stating that he would always cherish it and that it would be a constant reminder of his pleasant and congenial associations with his brothers of No. 491. Mr. Hale is a member of Upper Sandusky lodge, No. 83.

The charm is a double tooth, handsomely mounted in solid gold. On the elk head and below a blazing cross is a glistening diamond. On the back of the charm is a dial with the hands pointing at 11 o'clock. The charm is a valuable one and possibly one of the handsomest of its kind ever turned out by the firm which furnished it.

## UTICA

Considerable interest is being manifested in the various Young People's Societies of the village. All are now in working order and are meeting regularly each Sunday evening. The officers at the Church of Christ are Pres. Floyd Carlisle; vice Pres., Lucille McLaughlin; Sec'y, Ruth Sutton; Treas. Raymond Tullios. At the Presbyterian church those in charge are Pres. Eleanor Kirkpatrick, vice-Pres. Albert Williams, Sec'y, Mary Trowbridge; Pianists, Mabel Smith and James Moorehouse. County Supt. Elmer W. Jordan was in the village Thursday forenoon inspecting the schools.

A Valentine party was given by the local high school in Union building last Friday evening. A large attendance and an excellent time are reported. A Valentine box was very much in evidence in each room of the grades on Monday.

The local Rebekahs gave a chicken supper in the Odd Fellow's hall last Sat. evening. So many attended they were barely able to take care of all.

Revival services are now going on at both the Presbyterian and Methodist churches. The co-operative plan is in vogue and much interest is being manifested.

The Senior classes of the high schools of Utica and Homer are very fortunate indeed to secure the services of Dr. F. H. Green of West Chester, Pa., to deliver the commencement addresses this year. The dates set are May 25 and 26.

Owing to the inclemency of the weather, very few from here attended the third quarterly teacher's meeting held in Newark last Saturday.

Miss Lilian Dennison of near Fairview, spent a few days of last week with friends and relatives here.

The second number of a series of entertainments to be given for the benefit of the Victrola fund is scheduled for Feb. 28, at the M. E. church. The National Glee Club and handbell ringers will give the program.

Mrs. Addison Weaver of St. Louisville was in town Tuesday.

## PLEASANT VALLEY

Rev. Mr. Miller filled his regular appointment at this place Sunday and was entertained at W. O. Beckhams for dinner.

Mr. and Mrs. O. E. Booth and family spent Thursday evening at Emma Varner's.

Mrs. Milligan Dunn and Mrs. W. Priest called on Mrs. Richard Baughman Saturday afternoon. She being in very poor health.

Mrs. G. I. Thompson spent Friday afternoon with her mother.

Some from here attended the lecture at Frazzysburg Monday night.

Mr. and Mrs. Frank Beckford spent last Friday with his parents of this place.

Mr. and Mrs. Willford Dugan and daughter Mildred were guests at W. O. Beckhams over Sunday.

## Widor's "Serenade" by the Trio de Lutèce

WIDOR'S delicate conception (No. A1907, 10-inch, 75c) is played with consummate artistry by the Trio De Lutèce, an ensemble of great soloists—George Barrère, flute; Carlos Salzedo, harp; and Paul Keefer, cello. The music of their instruments melts into a unit of sound of unforgettable loveliness, so beautiful that it surpasses even the matchless trio records which established Columbia fame in this field.

This record indicates the character and unusual interest of all the

ESTABLISHED IN 1870

Entered as Second Class Matter March 16, 1882, at the postoffice at Newark, Ohio, under Act of March 4, 1879.

The German spies are highly unpopular, almost as much so as the men who have to spy around assessing taxes.

Some of the tailors are displaying wine colored coats. They would be fine for the masquerade ball, also to wear while digging out the ashes.

The United States has three naval aeroplanes, and Germany has three, but of course our many arm chair strategists would always be able to tell the navy what to do.

The skirt makers will not be able to sell their skirts any cheaper because they are so very short, but the boot makers of course must have more money for their long legged product.

In spite of the flattering offers of railroad securities the owners of which are guaranteed regular assessments, the investors of the country persistently refuse under present conditions to put up the billion of dollars that the railroads need for improvements.

Winter Evenings At The Grange.

There is nothing very sleepy about the farmer's winter evenings in any village where there is a grange organization.

The farmer is often thought of as a tongue tied man. But somehow when he gets down at Grange hall with no one but his neighbors and friends to rattle him, his sharp and shrewd philosophy does loosen wonderfully.

The grange is not merely a work-a-day organization, formed to talk about soils and fertilizers. There are frisky socials, romping plays, dances at which many pigeon wings are cut, and last but not least the suppers. While the city folks are nibbling at aphemeral lay-outs of salads and puddings, the grange goes in for massive substantial like meat pie. But one must forbear to arouse longings that can't be satisfied.

The Initiative In Marriage.

About this time of year the newspapers abound in Leap Year jokes. One would imagine a general epidemic of so called "popping the question" in the feminine world. Whether anything of the kind exists further than invitations to attend Leap Year dances and other functions may well be questioned.

The old tradition that the initiative in marriage must be taken by the male sex is one of the most striking curiosities of every day custom. It would not be easy to explain it fully. No doubt there are isolated cases where it is boldly ignored without regard to the calendar by women of resolute purpose. But as a whole it is deeply ingrained in the female mind. In no other department of life's activities is the initiative so closely confined to one side. As between the buyers and sellers of merchandise, it is held to be legitimate for either one to take the first step with

European holders; the saving of hundreds of millions of dollars formerly spent by tourists abroad, and the tremendous earnings of the industries, form a basis of prosperity such as never before has been witnessed.

It is generally conceded that there will be much need of financial and industrial readjustment after the war is over. It does not necessarily follow that this should work serious hardship anywhere. With European government war loans selling to yield an average of 6 per cent, and loans of American municipalities selling to yield 4 per cent or less, it goes without saying that there must be an evening-up process whereby the cost of capital will not show such wide variations. The low interest rates, and abundance of money in the United States today, offer great opportunities for commercial growth and industrial expansion. In Europe, where \$25,000,000,000 already has been spent for war, and more is wanted, it is no wonder that interest rates have leaped forward. The demand for money in England is seen in the 1-2 per cent rate for day-to-day funds. In France, money requirements are severe, as indicated by the constantly increasing taxes. The fact that roubles are selling at a discount of more than 40 per cent in New York shows the financial strain Russia is undergoing. Although little is known of Germany's actual situation, the high prices charged for commodities are indicative of most unfavorable financial and economic conditions. The same is probably true of Austria-Hungary and of Italy, although actual knowledge of the financial conditions in these countries is scant.

Italy And Germany.

(New York World.)

Signs of a break, strangely delayed but now imminent, between Italy and Germany are connected in current comment with Premier Briand's visit. The new turn is due rather to events and to pressure of public opinion; M. Briand was clever enough to go to Rome at the right time.

Italy, grateful to Germany as to France and England for aid in her national regeneration, had no quarrel with Berlin. She went to war in "sacred egotism" to win her "legitimate aspirations." The "Parechti party, the Giolittians who would have bargained with Austria but who failed last May to grasp control, fell in with the plan of limited-liability warfare; and they have still much hidden influence in Rome.

Sacred egotism seemed well enough while Serbia, whose Adriatic claims clash with those of Italy, was being crushed; but when Bulgaria was said to seek a port on the Adriatic, Italians woke up. Sympathy with the Montenegrins in their confused troubles was general; anger at the Austrian naval advantage at Cattaro grew hot; and when hints were thrown out that the troops might be withdrawn from Albania, public opinion spoke too plainly to be ignored. More men were sent to Avlona, and an advance on Durazzo was begun. Gen Ameglio, a great Tripolitan favorite, is in command. With energetic support he has an advantage in sea transport over the Austrian warships, and the almost impassable Albanian roads. The decree prohibiting German imports which coincide with M. Briand's visit seems meant to force Germany to a declaration. Italy cannot go far into Balkan warfare without directly colliding with German aims and arms.

Rippling Rhymes

Gratitude.

The truth's discouraging and hateful, but mighty few are truly grateful. We go around and spend our money to make the people's lives more sunny; we carry soup and pies and ganders to folks who have the valier janders, we carry tea in bowls of chiny, to some poor widow shedding briny, we cough up plunks, our bank roll dwarfing, to help the sad and needy orphan. They thank us then, in Greek and Russian, in High Dutch, Low Dutch, French and Prussian. So far as words go they are grateful; they hand up language by the plateful. But, in their hearts profanely smirking, they say, "What is the use of working, to earn our victuals bread-and-cheese, when jays like these are so blamed easy? They'll clothe us when we're looking seedy, they'll feed us when we're feeling greedy; they'll bring provisions to our attics, and dope us when we have rheumatics." Still, though unworthy some are proving, we on our kindly rounds keep moving, in tenements and cellars smelly, distributing our soup and jelly. WAIT MASON.

Spirit of the Press

War's Great Lesson.

What is the one big thing in this war which overshadows everything else? German efficiency. Regardless of whether our sympathies are with the Germans or the allies; regardless of whether the Germans are right or wrong in this war; and without considering the methods they use to achieve their ends, all must admit that they are showing the rest of the world an efficiency both as to organization and methods that is nothing short of marvelous.—Engineering Magazine.

Why Not, Indeed?

Odd thing is that if a man's will is "broken," the attorney who drew it does not on that account lose caste. Why not have an arrangement under which the lawyer's fee for drawing a will should not be paid until the will is probated?—Boston Globe.

Farm Wages.

While the average wage of hired hands in the United States is \$21.05 a month, which isn't much, the wage-trend is up-grade. Since 1900 the wages of men working in cities has increased 22 per cent, whereas farm labor has gone up 37 per cent. Most men in the city have to get up at 6 or 7 o'clock in the morning to get to their work on time; even if they work only eight hours in the shop or factory.—Farm and Fireside.

Why She Hesitates.

Count von Bernstorff is quoted as saying there is no German equivalent of the word "disavow." Then it may have been objection to using foreign, and perhaps "had," words that made Germany hesitate.—Louisville Courier-Journal.

A Complex Melting Pot.

Hawaii's extraordinary complexity of races, brought about by induced immigration to meet the economic needs of the planters, makes the islands most interesting for study of problems of state, education and religion. Just as on the mainland, recently, some of the more perplexing phases of contiguity of persons of persons of varied culture have been apparent, so in the Pacific outpost it is becoming necessary to know just how far there is unification and loyalty to a distinctly American ideal. There are 92,000 Japanese in the islands. If adults among them seek naturalization, as one now does with insistency, will they be admitted? So recognized, would they be welcomed to California? What would Japan consider the status of such men to be, Japanese or American?—Christian Science Monitor.

Are Hands Ever Kissed?

The clinging kiss has been barred by the moving picture censors of Ohio and Pennsylvania. Hereafter no kiss may fill more than ten feet of film. A ten-foot kiss might seem to be a pretty long one to the outsider, but ten feet of film whisks past in about two seconds.

But what about the hand kiss? Did anyone, outside of a book, ever see a man kiss a woman's hand? Not in this part of the country, at least. But in nearly every moving picture love scene the hero bends over the hand of the woman he loves and kisses her fingers, fondly and long.—Kansas City Star.

The Same Old Americanism.

There is "the new freedom." And there is "the new nationalism."

But it's the same old Americanism which President Wilson stands for, acts in harmony with and summons to his aid in the high tasks confronting the administration.—Duluth Herald.

INSURANCE MEN DINNER GUESTS OF MR. JOHNSON

S. D. Johnson, district agent for the Cleveland Life Insurance company, was host last night at a dinner at the Warden Hotel to representatives of the company. Mr. Johnson's guests were: Charles E. Gleason of Cleveland, superintendent of agencies; William E. Rice, superintendent of the Health and Accident department, and Representatives Early Swan, D. L. Miller, John T. Birmingham, Walter Riley, and Glenn McDewitt of Clevela. Stanley Stoller, C. R. Bishop and J. H. Sharritt were unable to be present because of illness. Following the dinner, Mr. Johnson presided as toastmaster and speakers discussed topics of interest to insurance men.

SHOT BY COPS YOUTH DIES OF TYPHOID FEVER

Zanesville, Feb. 16.—Harry Mauk, 20, of White Cottage, near Zanesville, is dead, a victim of typhoid pneumonia, after surviving a hail of bullets from the revolvers of Zanesville police officers, who mistook him for one of the safe blowers whom the officers sought to arrest following a burglary at Somerset. Officers sent out from Zanesville intercepted Mauk and his father, Samuel Mauk, who were on their way to work in a Zanesville factory. When the Mauks disregarded the command of the officers to halt, the policemen opened fire. A bullet struck the younger Mauk in the heel. In a suit for damages he alleged that the injury was the cause of his illness.

DEMOCRATS TO HAVE A RALLY AT COSHOCTON

Coshocton is to have a great Democratic rally and convention next Friday, the anniversary of the birth of Washington. Senator Pomerene and Hon. M. A. Daugherty of Lancaster are to be present.

The convention is to be held in the Sixth street theatre at Coshocton, beginning at 10 o'clock in the morning. The United States Senator from Ohio will deliver a notable address "Washington and Preparedness." It will be a ringing call to Ohioans to rally to the national defense program. Mr. Daugherty's subject will be "The great need on the administration of the affairs of Ohio." At the morning meeting nomination of delegates to the Democratic convention will take place. The addresses of Senator Pomerene and Mr. Daugherty will be given in the afternoon beginning at 1 o'clock.

Most Thin People Want to Gain Weight

Suggests Simple Sixty Day Flesh Building Test. Many Reports Say It Succeeds.

Thin men and women who are really in earnest about wishing an increase in weight of ten to twenty-five pounds of good healthy flesh and tissue should surely be willing to follow a few simple rules of health in an effort to accomplish the desired end.

To put on flesh and weight and increase in strength and vigor they should eat wisely, breathe deeply, exercise sanely, sleep long, stop worrying and try taking a single Sargol tablet with each meal for a few weeks—then note results. Weigh yourself each week and let the scales tell their story.

Many thin people seemingly fail to assimilate a good portion of the fat-making nourishment in their foods which pass through their bodies as waste. But let them eat plenty of eggs, milk, chocolate, potatoes, rice and similar flesh-building foods and allow Sargol to aid in their proper digestion by the stomach and assimilation by the blood and there may easily be a different story to tell.

Sargol is harmless, efficient and splendidly balanced combination of assimilative aids and many users have reported weight increases ranging from 10 to 25 pounds that followed its use with meals. T. J. Evans, W. A. Erman, 33 North 3rd street, and other leading druggists cheerfully agree with any Sargol or that unless 60 days use of Sargol is accompanied by a satisfactory weight increase the money paid for it will be returned. This certainly makes its test a very simple matter.

St. Paul's Lutheran League gave a box social in the form of a Valentine party on Monday evening in the lecture room of the church. The hours were devoted to readings, violin solos, and vocal numbers. The delightful evening was spent by those in attendance.

Miss Vada Bowers, Mrs. Harold Leach and Miss Lucille Elliott delightedly entertained with a miscellaneous shower for Miss Clara Walker, as bride elect on Tuesday morning at the Elliott home in Bolton avenue. The rooms were prettily arranged with Valentine decorations and Miss Walker was the recipient of a number of beautiful and useful gifts. The time was devoted to games and music and a dainty reception was served to fifteen guests.

Miss Bease Kear, head trimmer for the Giffen Millinery store left on Tuesday for Cleveland.

Corsage bouquets of sweet peas were the favors at the six o'clock dinner with which Miss Catherine Rodgers entertained on Monday evening at her home in Coshocton, when she announced her engagement to Mr. Earl Richards of Chicago.

A large crystal basket filled with pink and white sweet peas formed the centerpiece which was encircled with small pink candles in crystal holders. The nut baskets were also in pink. The announcement was made when the last course was served. Ice cream molded into the form of a cupid was served and in the ice cream, wrapped in paraffine paper were engraved cards bearing the names "Rodgers-Richards". The following were the guests: Mrs. French Mizer, Mrs. Francis Weaver, Misses Mary and Helen McManis, Nora Colopy, Mary Rodgers, Margaret Moon, Mary Rodgers, Beulah and Fern Darnes and Irene Rodgers.

Miss Rodgers is the daughter of Mrs. William Rodgers. She was graduated from the Sacred Heart Parochial school at Coshocton and studied music at St. Mary's of the

## A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

Embarrassing Hairs Can Be Quickly Removed (Beauty Culture).

Hairs can be easily banished from the skin by this quick, painless method: Mix into a stiff paste some powdered delatone and water, spread on hairy surface, and in 2 or 3 minutes rub off, wash the skin and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the delatone in an original package.—Adv.

Theater. "A Woman's Confession," at the Mazda today tells the story of John Chalmers who meets with business reverses and goes west to retrieve his fortune for the sake of his family, consisting of a wife and child. In the west he meets and marries a rich woman that he will be enabled to send support to his wife and child in the east. His western wife gives birth to a child. Soon afterward Chalmers dies and years afterward the children of both women accidentally meet, fall in love and want to marry. It was then the first wife makes their relationship known. The picture is intensely interesting.

## Granville

[Special to The Advocate]

Granville, Feb. 16.—Town Council met last night in regular session with 11 members present. Among other things, perhaps the only thing accomplished which vitally concerns the public, was the granting of a new franchise to the Newark Telephone company, to install the automatic system in the village. This is bound to facilitate communication between Newark and Granville and will also simplify the local service. A petition was received by the council signed by the property owners on Main street, to pave that thoroughfare from College street to the T. & O. C. station. The Broadway matter remains unchanged except in a few details of the work.

Mrs. G. M. Strong entertained the fortnightly club at her home in Summit street, on Tuesday evening, February 15, at which a large number of members and guests enjoyed the splendid program presented. The quotation for the evening was, "Nothing lovelier can be found in woman than to study household good."—Milton, and certainly nothing more interesting has been heard in club circles than the carefully prepared papers by the three women on the program. Mrs. J. M. Swartz, in her own thorough-going manner, treated the subject of "Municipal Markets," in which she brought out many interesting facts. She spoke of the markets in Chicago, where the steel stales are used, and extraordinary sanitary measures are enforced. And, for the contrast, she went back to the early market in Granville where, in 1834, the only butcher shop was located at the foot of College Hill at the head of Main street. She spoke of the fifteen million children who are sacrificed to the unsanitary food and milk given them, and of many other things which it is impossible to mention in the limited space of a newspaper article, but which held the absorbed interest of her hearers.

Howard Jackson, the local violinist, and his two partners, who staged a musical act for the Elk minstrels, left this afternoon for Toledo, where they will resume their vaudeville tour.

Mr. and Mrs. Geo. Sessor, who have lived at 312 Wilson street for the past 22 years, have taken up their suburban home, one mile east of the children's home on the Zanesville road.

Croup Relieved in Fifteen Minutes. No need to dose delicate little stomachs with nauseous drugs or alcoholic rubs. Simply rub a little Vick's "Vap-O-Rub" Salve over the throat and chest. The vapors inhaled loosen the tough, choking phlegm and ease the difficult breathing. One application at bedtime insures a sound night's sleep. 25c, 50c, or \$1.00.

WICK'S VAPOR SALVE.

THE SICK. Thomas Sites, Tuesday afternoon was moved in Criss Brothers ambulance from 341 East Main street to St. Louisville.

Mrs. William Dodd was moved in the Criss Brothers ambulance Tuesday afternoon from the City Hospital to 299 Park avenue.

Calvin Lee was moved from the Sanitarium this afternoon in Criss Brothers ambulance to Chatham.

Mrs. Earl Stauffer, formerly Miss Thurma McMahon, who underwent a very serious operation at the City Hospital about two weeks ago is getting along nicely and will be removed to her home 710 West Main street on Friday.

H. B. McDonald, a B. & O. engineer, who has been ill with the grip at his home in East Main street has returned to work.

Mrs. W. H. Weaver of Eddy street who has been seriously ill for the past week at her home in Eddy street suffering with neuritis is now improving.

Miss Katherine Mast, teacher in the Keller Building is ill at her home in North Fourth street, suffering with the grip.

Miss Dorothy Wagner 54 North First street, who has been a patient at the City Hospital, was removed this morning in the Bazler ambulance to her home. Her condition is much improved.

Mrs. Belle Peterson residing near Home was brought to Newark in the Bazler ambulance last night and taken to the Newark Sanitarium. She was resting comfortably this afternoon.

Mr. and Mrs. J. S. Jones will leave tonight for a trip to New York City. Mr. Soreno Haynes, an old and respected citizen of Granville, died last night at his home in Thresher street, in the 76th year of his age.

Embarrassing Hairs Can Be Quickly Removed (Beauty Culture).

Hairs can be easily banished from the skin by this quick, painless method: Mix into a stiff paste some powdered delatone and water, spread on hairy surface, and in 2 or 3 minutes rub off, wash the skin and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the delatone in an original package.—Adv.

Theater. "A Woman's Confession," at the Mazda today tells the story of John Chalmers who meets with business reverses and goes west to retrieve his fortune for the sake of his family, consisting of a wife and child. In the west he meets and marries a rich woman that he will be enabled to send support to his wife and child in the east. His western wife gives birth to a child. Soon afterward Chalmers dies and years afterward the children of both women accidentally meet, fall in love and want to marry. It was then the first wife makes their relationship known. The picture is intensely interesting.

Alhambra, Tonight and Tomorrow. A dancer achieving a hitherto unheard of feat of making a Republic out of Portugal, and it is a dancer in a Vitagraph Blue Ribbon Feature "The Price of Folly," produced by the Vitagraph company, under the direction of George D. Baker, that Edith Storey will achieve her desire to portray a character that is absolutely at variance with any she has heretofore essayed. Miss Storey must be one favored of the gods, as she no sooner expressed a wish to be seen on the screen as a dancer than Mr. Baker, who happened to be passing and heard her, assured the Vitagraph star her wish was to be granted in "The Price of Folly."

Stocked Up. Grubbs—Are you planning to make any good resolutions? Stubbs—No, I am already pretty well stocked up in that way. You see, I never used those I made last year.—Richmond Times-Dispatch.

Every Day Etiquette. "Mr. Jones was very late at the dinner I gave last night. Should I have served him with the first course with which all the others had finished or should I have started him with the course then being served?" asked Mrs. Newlwynd.

"The late dinner guest is always expected to take up the dinner at the point it is when he arrives," replied her social mentor.

WICK'S VAPOR SALVE.

WY SUFFER WITH RHEUMATISM, KIDNEYS OR RHEUMATISM NOW?

Letter Tells of Long Looked-for Prescription. Dear Reader—I am making a personal appeal to those of you who are bothered with kidney and bladder trouble. That you give up the use of harsh salts or cathartic kidney medicines and in their place take a short treatment of "Anurie." I have taken many of Dr. Pierce's medicines for the last five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Doctor Pierce, namely, his "Anurie" Kidney Tablets. After using same I am completely cured of my kidney trouble. I recommend, heartily, all sufferers to Dr. Pierce, for what he has done for me cannot be estimated too highly. A doctor pronounced me a well preserved woman for my age, all due to believe, to Dr. Pierce's medical aid. Yours very truly, Mrs. MELINDA MILLER, Kingsfold, Ohio, Route 1.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists at Dr. Pierce's "Invalids" Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anurie" has not been out of sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Doctor Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

Simply ask for Doctor Pierce's Anurie Tablets. There can be no imitation. Every package of "Anurie" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and reconstructer for any one.

Many Cases of Rheumatism Now Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

TANLAC THE AGENCY BY WHICH THIS WAS ACCOMPLISHED IN THE CASE OF W. E. PRIEST.

Had Stomach Trouble, Was Nervous and all Out of Sorts Until He Tried Master Medicine.

Mr. Wm. E. Priest, a spinner at Rugg's Hatter Factory, and who resides at 274 Hollander street, is another whose belief in the virtue of Tanlac is unshakable. Mr. Priest thus far has taken a little less than one bottle of Tanlac and has found it all and more than he claimed for it by its most enthusiastic devotees. Mr. Priest had stomach trouble and was greatly run down by nervousness and loss of sleep and his appetite almost gone but he now is in excellent shape and he gives Tanlac the credit for it. In speaking of his former and present condition he said: "I was in a really unwell condition with scarcely any appetite and I was not sleeping well at all but since taking Tanlac I have a ravenous appetite, sleep splendidly and the pains in my sides, back and chest have entirely disappeared and naturally I feel kindly toward Tanlac and recommend it to all who suffer as I did."

Thousands of people have been benefited by Tanlac just as has Mr. Priest and many other thousands have found Tanlac just as beneficial in catarrh, rheumatism, fever and kidney trouble and the after effects of grippe and pneumonia. Besides it is a great upbuilding tonic and system purifier. Tanlac is demonstrated at Hall's Drug Store, and is for sale at Pataskala by J. R. Strine, at Hebron by the Hebron Drug Co., at Granville by W. P. Ullman, at Utica by P. H. Richardson and at Ashville by D. H. Squire and Sons.

plainly inadequate. The opening here which ranged from a shade off to 1/2-1 1/4 advance, was followed by a substantial upturn all around. Rumors of authority having been granted for drastic measures by the British government in regard to seizure of food supplies and the control of shipping led to a further advance in wheat. Bulls had reports also of an active milling demand at Duluth and Kansas City. The close was unsettled 1 1/2-1 3/4 to 2 net higher with May at 1.36 1/2, and July at 1.37 1/2. Corn rose in value owing chiefly to the fact that receipts were smaller than expected. It was said farmers were holding and that besides there was a scarcity of cars. After opening a sixteenth to 4 higher the market reacted a trifle and then scored sharp gains. The smallness of the visible crop supply counted against the bears and too and unfavorable crop reports from Argentina. The close was steady at 1 1/2-1 3/4 net advance. Oats reflected the action of corn. Trade was light. The higher prices on hogs and grain caused provisions upward. Shorts bought freely.

## TAXING SYSTEM TO BE SUBJECT OF DISCUSSION

CITIES SHOULD SHARE IN AUTO TAX AND GET MORE SALOON REVENUE.

Reduction of Number of Saloons An Important Factor in Newark's Financial Deficit.

A part of the state automobile tax for cities and a larger share of the saloon tax are two solutions offered to help bring Ohio cities out of their present financial difficulties. These two suggestions will be discussed at Columbus, Friday of this week by members of a committee appointed by Stewart L. Tatum of the Ohio Municipal League, to consider the operation of the Smith one per cent. law and to endeavor to find some way to help Ohio cities out of the troubles.

Municipal experts agree that the taxing system of the state needs revision. Cleveland starts the year with a floating debt of \$1,000,000, representing deficits in operation for 1914 and 1915. Toledo's debt is \$400,000, Dayton's \$75,000, Columbus' \$150,000, Cincinnati's \$350,000.

Newark has its troubles but it is not in proportion to the financial worries of the bigger cities. The end of the present year will find the city behind about \$10,000 and this entirely within the safety department. Of this sum, more than \$8,000 was handed down by previous administrations. It has been accumulating since the city was compelled to get along with reduced revenue from the saloon tax, caused by the reduction in the number of saloons from 88 to 56.

The finance committee of the city council, with the safety committee, have been wrestling with this problem since the first of the new year when the new council was organized. The solution reached by the committee was that the safety department should be reorganized.

Therefore the safety committee offered ordinances which the members claimed were designed to solve the problem. By cutting five men from the payroll, changing the office of police captain to desk sergeant, and providing for a new system of police telephone which it is claimed will cost less money for maintenance and operation, it is asserted that this deficit would be wiped out in a couple of years. It is claimed that the passage of these two ordinances would save more than \$6,000 per year.

At the meeting of the committee of the Ohio Municipal League in Columbus Friday, mayors and directors from a number of Ohio cities are expected to attend. It is possible that some representatives of Newark will be present, though none of the officials today had planned to go.

The members of the Municipal league declared that three factors are responsible for the financial troubles, (1) the Smith law is a failure; (2) the failure of local taxing officials to put upon the duplicate enough additional property values to produce the revenue needed, and (3) losses of cities from saloon tax because the new constitution reduces the number of saloons from which tax is received.

Newark officials to whom these factors were suggested would not agree to the first two propositions. They believed the Smith law was successful and that the tax duplicate here represented by approximately 29 million dollars was pretty close to being correct. They did agree that the reduction in the number of saloons was an important factor in the financial deficit.

As to remedies suggested by the Municipal league members, there are several. These are:

That the legislature abolish entirely the state's direct levy which raises about \$3,000,000 a year for state purposes, and permit the cities to levy this rate of 45 cents on each \$1,000 of property for city purposes.

That the legislature give the cities a part of the state auto tax.

That the cities be given a bigger share of the saloon taxes.

That property be classified for taxation purposes, intangible personal property being assessed the lowest rate to induce more of it to come out of hiding.

That county home rule in taxation be established, letting each county as a unit make its own tax laws.

Any of these changes would require much educational work and probably bitter fights in the legislature or in campaigns to amend the constitution.

There's one big, important thing

### TIED ALL THE TIME

It is good to feel tired sometimes, when you have exercised sufficiently to cause a healthful feeling of fatigue.

But, you should be refreshed by rest. A tired feeling that does not disappear even after a night's sleep is abnormal. It means that you are anemic or debilitated, that you need a tonic to build you up and fortify your system against such a condition. If you do not you are inviting disease because thin blood means that the body's defense against the inroads of disease is lowered.

Thin blood is largely the sufferer's own fault. It results from neglect, because the blood can be built up. Dr. Williams' Pink Pills supply the elements that the blood needs to make it rich and red, and to enable it to carry more oxygen. Building up the red portion of the blood is simple but because thin blood does not call attention to itself is often neglected. Have you seriously considered taking a course of treatment with these blood-making pills? If you are in doubt write for information.

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price 50 cents. Write to Dr. J. C. Williams, Medicine Co., Schenectady, N. Y. Write now for the free booklet "Building Up the Blood."

### WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandruff at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.

That can be done right now, says the Municipal League.

Put on the tax duplicates of the big cities the hundreds of millions of wealth that is escaping taxation altogether.

The state's total duplicate this year is around \$7,500,000,000. State Auditor Vic Donahey thinks it would be nearly \$20,000,000,000 if all the property in the state were to go on the duplicates. The state tax commission says it would be from 12 to 15 billion.

None of these suggestions were favorably received by the "taxation sharks" here except the second and third. It was unanimously agreed that the cities of the state should have a share of the automobile license fees and that the cities should have a larger share of the saloon tax.

It was also suggested that some arrangements be made to curtail the levy for county road construction. It is asserted that this one feature alone in this county had more to do with the reduction of the city's revenue from taxation, than any other one feature.

Cities are now required to make a special levy for singing fund purposes. In some cases this levy is more than half as much as for all other purposes. In Toledo, for instance, 63 cents of every dollar realized from taxation, is for singing fund purposes. In Newark this condition is not so bad.

Next Monday night council will again tackle the problem and it is likely that the question will be decided one way or the other.

### COUNTY FAIR TO BE DISCUSSED BY FRANKLIN INSTITUTE

Among the round table topics for discussion at the Franklin Farmers' Institute Monday and Tuesday, Feb. 21 and 22, is one that will be of much interest to other farmers in the county. The subject is "In what way can our county fair be improved?" Most of the farmers have been free to admit that there is room for improvement in the fair during the past few years and an effort will be made to analyze the difficulty and suggest remedies.

Addresses of corn growing, fertilizing, hog production and other interesting topics, by Frank Blackford will be features of the program. Good music and recitations are also included in the program for the two days. It is as follows:

**Monday.**  
7:00 a. m.—Music, Hymn, Coronation; Invocation, Rev. D. J. Smith; Cultural Methods of Corn Growing, Frank Blackford; Home Care of Milk and Butter, Miss Pearl Dorsey; Round Table "Why do many farmers neglect to paint farm buildings?" (Discussion.)  
1:00 p. m.—Music, Orchestra; The Girl and Her Opportunities; Miss Pearl Dorsey; Manures and Clovers, Frank Blackford; Music, Orchestra; Round Table "Necessity of keeping farm accounts," Fred H. Stevens.

7:00 p. m.—Music, Orchestra; Recitation, "The Sheriff's Visit," Lucille Dodson; The Value of Education on the Farm, Mrs. Lizzie Hoskinson; Music, Orchestra; Recitation, Frank Hunter; The Social Side of Farm Life, Frank Blackford; Music, Orchestra.

**Tuesday.**

**SPEED REDUCED ON PASSENGER TRAINS.**

(Associated Press Telegram.)  
Charleston, W. Va., Feb. 16.—Because of numerous wrecks on the coal and coke railway, owing to landslides, an order has been issued requiring all trains to be run at a lower rate of speed. Passenger trains are permitted to make only 20 miles an hour. The schedule calls for 28 miles.

### ORDINANCE NO. 2557.

BY SHIREH—

Determining to proceed with the improvement of the alley lying between West Main street and West Church street and running from North Fourth street to North Fifth street, and the alley lying between North Fourth street and North Fifth street and running from West Main street to West Church street by grading and paving the same.

Be it ordained by the Council of the City of Newark, State of Ohio, three-fourths of the members elected thereto concurring:

Section 1. That it is hereby determined to proceed with the improvement of the alley lying between West Main street and West Church street and running from North Fourth street to North Fifth street, and the alley lying between North Fourth street and North Fifth street and running from West Main street to West Church street by grading and paving the same in accordance with resolution passed on the 6th day of December, 1915, in accordance with the plans, specifications and estimates hereto approved and now on file in the office of the Director of Public Service.

### RESOLUTION

BY ADAMS—  
Declaring it necessary to improve the alley lying between Pearl street and Buckingham street by constructing a sewer therein.

Be it resolved by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is necessary to improve the alley lying between Pearl street and Buckingham street by constructing a sewer therein, according to the plans and specifications and estimates prepared by the Civil Engineer, now on file in the office of the Director of Public Service, and the same approved and which shall be open to the inspection of all persons interested therein.

The materials to be used in the construction of said sewer shall be vitrified clay or shale sewer pipe, and brick catch-basins and manholes with cast iron covers.

Section 2. That the grade of said sewer shall be as shown on the plans and profiles now on file in the office of the Director of Public Service.

Section 3. That the whole cost of said improvement, less one-fifth thereof, and the cost of intersections, shall be assessed by the foot frontage upon the following described lots and lands, to-wit: all lots and lands bounded and abutting upon the proposed improvement, which said lots and lands are hereby determined to be specially benefited by such improvement, and the cost of said improvement shall include the expense of printing and publishing the notices, resolutions and estimates, and the cost of the collection of deferred payments, and all other necessary expenses.

Section 4. That the assessments to be levied shall be paid in ten semi-annual payments at 5 per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passing of the assessing ordinance to the City Treasurer, in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the deferred assessments and all other necessary expenses.

Section 5. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.

Section 6. That the remainder of the cost of said improvement not specially assessed, including the cost of intersections and the damages awarded any owner of adjoining lands and interest therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 7. This resolution shall take effect and be in force from and after the earliest period allowed by law.

Passed Feb. 15, 1916.  
C. B. KELLER,  
President of Council.  
J. S. WOODWARD,  
Clerk of Council.

Approved by the Mayor this 8th day of February, 1916.  
R. C. BIGBEE,  
Mayor.

2-9-Wed-2t

ORDINANCE NO. 2568

BY KEYES—  
To issue bonds of the City of Newark, Ohio, to pay the city's portion of the costs and expenses of the improvement of the alley lying between North Main street and Locust street; Tenth street from Church street to Hoover street, and Indiana street from Buena Vista street to Cedar street by curbing and paving the roadway thereof.

Be it ordained by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is hereby determined necessary by the Council of the City of Newark, Ohio, to issue and sell bonds of said city to pay the portion of the cost and expense of said improvement, to-wit: Five Thousand and Fifty Dollars (\$5,500.00) for the improvement of the alley lying between North Main street and Locust street; Tenth street from Church street to Hoover street, and Indiana street from Buena Vista street to Cedar street by curbing and paving the roadway thereof.

By virtue of Sections 3820 and 3821 of the General Code of the State of Ohio, there shall be issued six coupon bonds numbered consecutively from one to six, inclusive, in the aggregate sum of \$5,500.00, bearing date of Feb. 15, 1916, and payable at the office of the Sinking Fund Trustees of the City of Newark, Ohio. The bonds shall be issued in the denomination of \$1,000.00 each; one bond in the denomination of \$5

## RESERVE OPENS BASEBALL SEASON AT DENISON, APR. 21

Granville, Feb. 16.—Ten games, four abroad and six at home, are listed on Denison's baseball schedule announced here last night. Western Reserve will open the season here April 21, when the Forest City nine will endeavor to demonstrate athletic superiority after winning from Denison in football and losing the basketball decision this year.

Ohio State will not appear here for a commencement game, as had been the custom in the past. Schedule plotters decided that Ohio Wesleyan will furnish opposition for the only commencement contest this season. Ohio University usually has a place on the schedule, but the Green and White will not be played this spring. Wesleyan will be played here and abroad, as has been the rule. Delaware will see the first game on May 6 and Granville the second on June 10.

Bethany College of Bethany, W. Va., is a newcomer. The Virginians are slated for a Granville performance. The schedule is unusually light this year, generally 12 or 14 games are listed. The dates:

April 21—Reserve.  
April 29—Mt. Union at Alliance.  
May 5—Wesleyan at Delaware.  
May 9—Bethany.  
May 13—Wooster at Wooster.  
May 19—Miami.  
May 27—Otterbein at Westerville.  
June 3—Akron.  
June 10—Wesleyan.  
June 12—Alumni.

## "Home-Run" Baker Bought By Yanks; Sale Is Confirmed

New York, Feb. 16.—John Franklin Baker, former star third baseman and home-run king of the Philadelphia Athletics, has been bought by the New York Yankees, according to announcement made by Manager William E. Donovan of the Yankees last night. The price was not made public.

Baker signed a three-year contract. The negotiations were ended late yesterday at a conference between Manager Connie Mack of the Athletics and Captain T. L. Huston and Jacob Ruppert, owners of the Yankees. While the price paid by the New York club was not announced, it has been reported several times that Mack was demanding \$25,000 for Baker's release.

Before the opening of the playing season last spring Baker demanded a larger salary than that called for under his contract with the Athletics, which had another year to run. Mack refused to grant the increase and Baker retired to his home at Trappe, Md., remaining out of professional ball all season.

## WILLARD ASKS POSTPONEMENT OF MORAN BOUT

(Associated Press Telegram)  
New York, Feb. 16.—Tex Richard promoter of the Willard-Moran bout has received a telegram from Jess Willard at Chicago in which the champion said he could not get into condition in time for the fight on March 8. The telegram shown by Richard today read:

"Have had severe cold several days, kept thinking could wear it off. Felt so much worse yesterday saw I could not get in condition by eighth. Will begin work soon as I am able. Sorry to discommode you."

Before leaving for Chicago Tom Jones said that unless Willard is much worse than his manager believed him to be, he would bring the big fighter back to New York in a few days.

"The Willard interests do not want the fight postponed unless it is absolutely necessary," said Jones.

Word was received here from Saratoga Springs, N. Y., where Frank Moran is training that he had sent a message to Willard offering to postpone the contest until the champion had ample time to get in perfect condition. Ike Dorgan, Moran's manager, said he would come to New York today to see Richard about a possible postponement of the fight.

## Jake Stahl Heads Chicago Amateurs; Delegates Report

(Associated Press Telegram)  
Chicago, Feb. 16.—Garland (Jake) Stahl, former manager of the Boston American League club, has been chosen president of the Chicago Association of Amateur Baseball Leagues. At a meeting of the association last night a report was made by the two Chicago delegates who attended the convention at Louisville of the National Amateur Baseball Association where a factional fight developed.

As a result of this report the local association withdrew from the National body and will send delegates to the convention of the new National Amateur Baseball Federation at Cincinnati, Ohio, March 11.

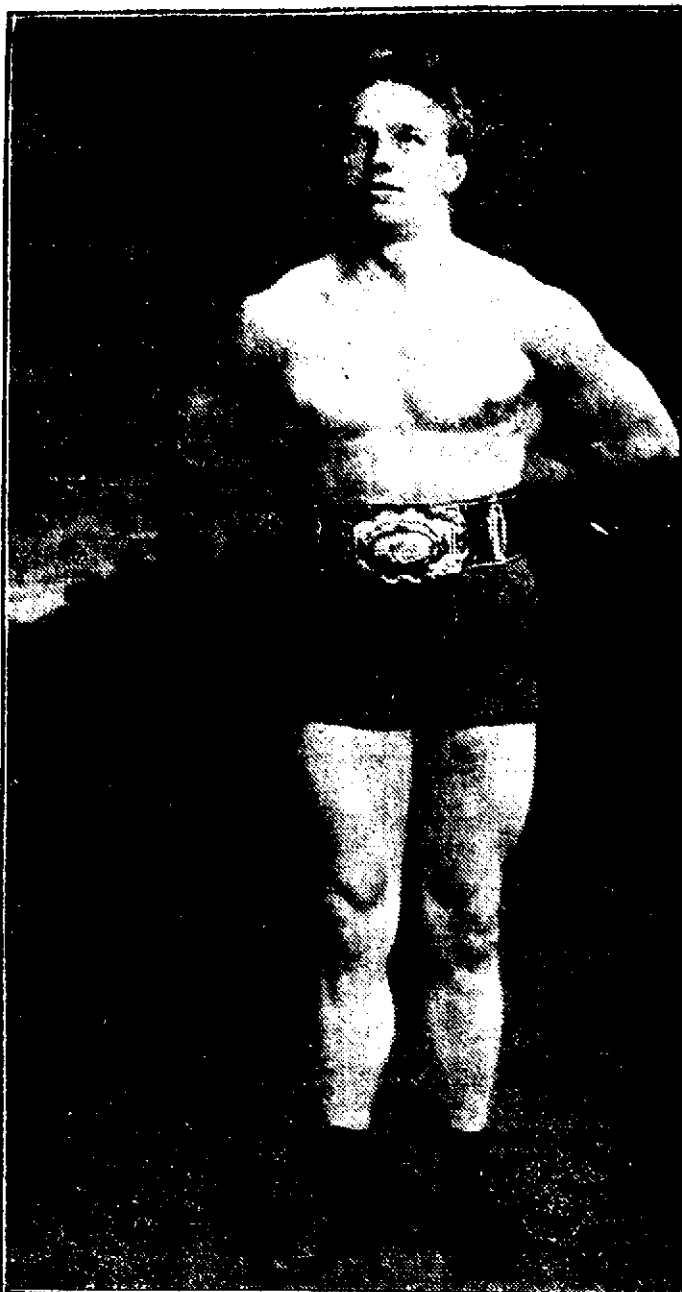

## Delaware High Basketball Team Here Friday 7 P. M.

The Newark High Basketball team meets the Delaware High team at Hickey Hall, Friday evening at 7:00 o'clock.

Delaware was one of the two teams that won from Newark last year. Coach Millisor has been making the players practice extra hard to meet this foe and the team will give them some fight.

One Feb. 22, Newark plays West High of Columbus. West is now holding the championship of the Capital City and those present will witness a good game. The proceeds of the game will be used to purchase sweaters for the players.

## THOR OLSON, POMEROY SWEDE READY FOR HIS BOUT WITH BOWSER THURSDAY NIGHT

Thor Olson wearing the Lord Lonsdale welterweight championship belt, which he held till about a year ago, when he was unable to make the welterweight limit.

Thor Olson, the pride of Pomeroy, who meets Paul Bowser, the Newark prizefighter, in a finish bout at the Music Hall Thursday night, is expected to arrive in the city today. Olson has been training hard for this bout and expects to polish off his work at some local gym.

Despite the fact that the crowds usually fall off following a big match like the Turner-Bowser go fast week, the advance sale for Thursday's show is large. The fans are anxious to see what the Swede can do toward repeating Turner's stunt. Then the Jim White-Vance Wallace-John Heckelberry semi-windup bout is creating a great deal of interest. Wallace and Heckelberry are working hard for this match and hope to stop the Coshocton man.

Coshocton fans probably will come to Newark in force to pull for White, who is quite a favorite. White agreed to throw both Wallace and Heckelberry in thirty minutes.

The Teuscher Brothers will be seen in the opener which will be a time limit bout.

## CLEVELAND CLUB SOLD BUT THE NEW OWNER NOT NAMED

Chicago, Feb. 16.—The sale of the Cleveland American League club to new owners has been practically completed, according to a statement made last night by President D. B. Johnson of the league, who declined to confirm or deny various rumors that Charles W. Murphy, former Cub owner, was to be one of the stockholders, or that Chicago capital was interested. Sanction of the sale will be asked by Mr. Johnson at the New York later this week, and the formal announcement probably will be made in Cleveland.

The change of ownership is likely to involve no change in the management, according to Mr. Johnson. Lee Fohl, who led the club the latter part of the 1915 season, has signed a contract for the coming year. It had been reported that George Stovall would take the management.

## CLOSING UP SALE OF CLEVELAND CLUB.

(Associated Press Telegram)  
Cleveland, Feb. 16.—President Ban B. Johnson of the American League arrived here this morning, and went into conference with bankers in charge of the affairs of the Cleveland baseball club, to close up the sale of the property and franchise. No statement was given out by any of those in the conference.

## OTTERBEIN GETS A PLACE ON THE O. W. U. SCHEDULE

Westerville, Feb. 16.—Two important changes have been announced in Otterbein's 1916 football schedule by Manager Schrist. Ohio Wesleyan will be met at Delaware on Oct. 21, instead of Hiram at Westerville as was first announced.

There will be only two home games. St. Mary's of Dayton will appear on the Westerville field on Oct. 28, instead of Antioch, as was first announced.

Sept. 30—Denison at Granville.  
Oct. 7—Kenyon at Gambier.  
Oct. 14—Ohio at Athens.  
Oct. 21—Wesleyan at Delaware.  
Oct. 28—St. Mary's at Westerville.  
Nov. 4—Marshall at Huntington.  
Nov. 11—Muskingum at Westerville.  
Nov. 18—Marietta at Marietta.  
Nov. 25—Heidelberg at Tiffin.

## CIVIL ENGINEER COMITS SUICIDE ON LONELY ROAD

(Associated Press Telegram)  
Philadelphia, Feb. 16.—Charles Mills, 53, said by his associates to be one of the most capable civil engineers in the country committed suicide on a lonely road last night. He shot himself with a revolver he had just purchased and his body was found by a soldier from Fort Mifflin, where a detachment of troops is located.

Mr. Mills served as consulting engineer on construction of the Booklyn subway until he broke down from overwork.

**PRINCE ALBERT**  
CHAMP GUT  
SMOKING PIPE AND  
CIGARETTE TOBACCO

*Watch your step!*  
It's easy to change the shape and color of unshapable brands to imitate the Prince Albert tidy red tin, but it is impossible to imitate the flavor of Prince Albert tobacco! The patented process protects that!

# Prince Albert is so friendly and so all-fired-good

that it just makes a man sorry-like that he didn't get onto this pipe thing and cigarette rolling stunt a-while-ago. He counts it lost time quick as the joy's goodness of this P. A. tobacco gets firm set into his happiness division. The patented process fixes that—and cuts out bite and parch!

Men, it's so easy to get on the right track for straight-ahead-action—and the ride only stands you 5c or 10c—that it sure is due you, due your tongue, due your contentment-container to know how much you'll like

## PRINCE ALBERT

*the national joy smoke*

That tobacco appetite of yours, when it gets-going-good, is as fierce as a baby's cry for milk! Right now, while you feel it digging in, do that little old tree act—leave for the nearest store that sells tobacco! And get yours!

Because Prince Albert, jammed into a jimmy pipe or rolled into a makin's cigarette, taxes the joy-speed-limit! And you'll get the listen of what that means the minute you put some P. A. next to a match! You'll get flavor and aroma and coolness that will set-to-rest-for-all-time any odd notions you ever concocted about pipe-pleasure and makin's pleasure!

*Allover the U. S.—and in every civilized country in the world—you'll find P. A. cheerily awaiting your ready-do in today's red bags, 5c, 10c, 20c tins, 10c, 20c handsome pound and half-pound tin tins—and in that corking-fine crystal-glass humidor with sponge-moistener top that not only keeps the tobacco in such clearest trim, but is such a siffy thing to have about!*

## Gums shrinking? Danger ahead!

Go now to a mirror and examine your mouth! Do your gums look "singed out," shrunken? Do you see a jagged appearance in the gum-line?

If so, see your dentist. He will tell you that you have *pyorrhea*, and that to save your teeth you will have to fight this dread disease at once.

From *pyorrhea* come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

But *Senreco* does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of *Senreco* alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the *Senreco* treatment before *pyorrhea* grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get *Senreco* of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

## Rupture Expert Here

Well Known to Leading Physicians  
Who Endorse His Methods.

W. R. Seeley, the noted rupture  
specialist of Philadelphia, is sending  
his personal representative to New-  
ark, ONE DAY ONLY to minister to  
the needs of the ruptured public,  
thoroughly equipped and prepared  
to deal with the most difficult cases.  
Interested parties can consult him  
free of charge at the Hotel Warden,  
Friday, February 18, 1916.  
Seeley's Spermatic Shield Truss as  
used and approved by the United  
States government and by the Czar  
of Russia, will retain any case of  
rupture perfectly, affording immedi-  
ate relief, and closes the opening in  
a short time on the average case. It  
produces results without surgery or  
harmful injections. No leg straps to  
irritate and soil. No binding of  
hips. Clean and durable. Examina-  
tion and advice free. Personal refer-  
ence on request. Home office  
1927 Walnut street, Philadelphia.

WM. G. DESHLER

OF COLUMBUS

DEAD; AGED 89

(ASSOCIATED PRESS TELEGRAM)

Columbus, Feb. 16.—Wm. G.  
Deshler, aged 89, wealthy banker  
and philanthropist, died here today.

He was a life-long resident of Co-  
lumbus and founder of a national  
bank, which bears his name. For  
many years he had lived in his fami-  
ly residence in the heart of the city,  
and was a familiar sight on the busi-  
ness streets as he took daily walks  
past the "skyscrapers" which he  
helped to build. A large hotel now  
being completed adjacent to the  
capital square was built with his  
funds and will bear his name.

AMBASSADOR TO

PETROGRAD HAS

RESIGNED POST

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Feb. 16.—(Via Lon-  
don.)—George T. Marye, the Ameri-  
can ambassador, has resigned, giv-  
ing ill-health as his reason. He has  
not been advised of the acceptance  
of his resignation by the state de-  
partment.

Mr. Marye expressed a desire to  
be relieved as early as possible.

The former confirms the report  
from Washington yesterday that Mr.  
Marye had resigned.

Mr. Marye was appointed ambas-  
sador to Russia in July, 1914.

WILL BE ACCEPTED.

(ASSOCIATED PRESS TELEGRAM)

Washington, Feb. 16.—Ambassa-  
dor Marye's resignation will be ac-  
cepted when it reaches Washington.  
It was said today the state depart-  
ment had no reason to detain him  
longer than was necessary in a cli-  
mate where his health was affect-  
ed.

SENTENCE

TO PENITENTIARY FOR MAN  
WHO STAGED FAKE DROWN-  
ING IN OHIO

To Relieve Himself of Creditors—  
Pleaded Guilty to Charge of  
False Pretenses.

Columbus, Feb. 16.—Robert C.  
Strang, contractor, who more than  
a year ago staged a fake drowning  
in the Ohio river to relieve himself  
of the importunities of creditors,  
was sentenced to the state peniten-  
tiary today by Judge Dillon, in the  
criminal court, after he pleaded  
guilty to a charge of securing credit  
from a surety company under false  
pretenses.

Strang had the contract for the  
erection of a home for the Loyal  
Order of Moose at Cincinnati, and  
was required to give a bond for the  
proper performance of the work.  
He represented to Charles H. Ban-  
croft, a Columbus agent, that he had  
considerable property, which he did  
not have, in order to secure this  
bond. He then started to work on  
the Cincinnati building and secured  
an estimate of \$3,400 on his work,  
rowed out into the Ohio river, fell  
overboard and was "drowned." His  
wife collected about \$7,000 insur-  
ance and Strang was located in New  
Orleans and arrested.

Robert B. Pfeiffer, attorney rep-  
resenting Strang, made a plea for  
Strang, but Judge Dillon commit-  
ted him to the penitentiary without a  
recommendation as to the time  
he should be detained.

## F. S. MONNETT

WAS IN CITY

TO TRY CASE

Ex-attorney General F. S. Mon-  
nett, now under an indictment re-  
turned several weeks ago by the  
federal government, for alleged ac-  
tivities in a conspiracy to incite  
strikers throughout the United  
States, appeared in common pleas  
court this morning.

Monnett and H. H. Felsman, his  
associate, appeared before Judge  
Thomas B. Fulton as counsel for  
Mrs. Mary Bender, in the case of  
Bender vs. Wallace Davidson. The  
case was passed to Thursday morn-  
ing on account of the death of Geo.  
Graef, father-in-law of Attorney Phil  
B. Smythe, counsel for the defend-  
ant.

In the case of the Park National  
Bank vs. the Hanover Red Pressed  
Brick Co., in common pleas court on  
Wednesday, the sale reported made  
by the receiver was confirmed by  
Judge Thomas B. Fulton, and deed  
ordered made to the purchaser, the  
Hanover Brick Co.

H. J. Chittenden vs. Geo. W. Craw-  
ford, passed; settlement reported  
pending.

Johnstown Building & Loan Co.,  
vs. Mary A. Wright: Leave given to  
re-file the answer of Mary A. Wright  
as an answer to the amended peti-  
tion.

In the assignment for Thursday:  
Bender vs. Davidson; Sissea vs.  
Rhodes; McLain vs. Leora Johnson;  
Nash vs. Shipley, Guardian.

In the assignment for Friday:  
Maze vs. Newark Art Stone &  
Plaster Co.; Shepherd vs. Boggs;  
(settlement reported pending); Mc-  
Cann vs. City; Weldon Harwick Co.,  
vs. Yockey.

Marriage Licenses.

Frederick Laundrum, glassworker,  
Utica, and Mrs. Gertrude Stewart,  
Utica.

Ralph A. Meacham, clerk, Newark,  
Miss Clara E. Walker, of Newark.

Real Estate Transfers.

Sarah E. Harris to John T. Reese,  
part of lot No. 17 in Licking coun-  
ty, \$1, etc.

A delegation of six women resi-  
dents of Jefferson street called on  
the county commissioners today and  
requested that body to take some  
action in erecting a bridge across  
the creek on Jefferson street. The  
property owners claim that the open  
street causes a depreciation of prop-  
erty value and that it is hard to rent  
their properties. The commissioners  
promise to take the matter under  
advisement.

Justice D. M. Jones.

William M. McFarland, was haled  
into Justice Jones' court this morn-  
ing to answer to a charge of having  
in his possession an illegal fishing  
net. He entered a plea of not guilty  
and his case set for hearing Wednes-  
day, February 23, at 1 o'clock.

Pete Sabo, arrested by Deputy  
Game Warden E. F. Roberts and  
Constable Emmett Forgrave on a  
charge of hunting without a license,  
pleaded guilty. He was assessed the  
minimum fine of \$25 and costs,  
which he paid.

MANAGER OF A

TORPEDO PLANT

BLOWN TO BITS

(ASSOCIATED PRESS TELEGRAM)

Cleveland, O., Feb. 16.—Charles  
Baker, local manager for the Wash-  
ington Torpedo company, of Wash-  
ington, Pa., was blown to bits today  
when he entered the company's  
storehouse in Olmstead Falls, a sub-  
urb, to get a load of nitro-glycerin.

Three minutes after he went into  
the building, 800 quarts of the ex-  
plosive kept there; blew up. The  
detonation shook the countryside for  
miles, breaking windows, shilling  
trees and damaging furniture. The  
automobile in which Baker expected  
to carry the explosive and which  
stood in front of the storehouse  
when he entered was destroyed. The  
building was reduced to splin-  
ters. Reuben Hall, a farmer, was  
injured when thrown to the ground  
by the blast.

WOMAN KILLED

BY ANOTHER IN

A CROWDED CAR

(ASSOCIATED PRESS TELEGRAM)

Huntington, W. Va., Feb. 16.—  
Mrs. Rose Wood, a young married  
woman, was shot on a crowded Hun-  
tington-Ashland interurban car to-  
day at noon, by Mrs. Leonard Defoe,  
who claimed that Mrs. Wood had al-  
literated her husband's affections.

Mrs. Wood was seated in the car  
with Defoe, bound. It was stated for  
Cattlettsburg. Mrs. Defoe boarded  
the car in West Huntington, and  
walking to the seat occupied by the  
couple, drew a revolver from her  
muff, and placing it against the  
back of Mrs. Wood's head fired. Mrs.  
Defoe died almost instantly. Mrs.  
Defoe surrendered to the police.

FATALITIES ON

## THOMAS B. LANHAM

STATE SECRETARY OF

Y. M. C. A. CO. WORK

Thomas B. Lanham has been in  
the city for a few days helping Gen-  
eral Secretary Frank L. Johnson and  
the Board of Directors of the Local  
Y. M. C. A. settle upon the definite  
arrangements for the State Con-  
vention which occurs here next week.

sponding to requests made for any  
particular service in connection with  
the convention.

Mr. Lanham has spent 30 years  
of his life in work among boys and  
young men principally in rural com-  
munities. He is especially interest-  
ed in the boy who is leaving the  
country to make his way in the popu-  
lar city. At present there are six  
counties in Ohio which are organized  
under the county work plan. This  
work makes a vital connection be-  
tween all the boys of the county and  
the schools and churches and in turn  
trains him for the special place into  
which his lot is to be cast whether  
in the city or country.

Mr. Lanham is an authority on  
rural economies and is this week  
before the farmers at the State Uni-  
versity leading in discussions tend-  
ing to help the
